### Disclaimer

This Land Information Memorandum (LIM) has been prepared for the applicant for the purpose of section 44A of the Local Government Official Information and Meetings Act 1987.

The LIM includes information which:

- Must be included pursuant to section 44A of the Local Government Official Information and Meetings Act 1987
- Council at its discretion considers should be included because it relates to land
- Is considered to be relevant and reliable

This LIM does not include other information:

- Held by council that is not required to be included
- Relating to the land which is unknown to the council
- Held by other organisations which also hold land information

Council has not carried out an inspection of the land and/or buildings for the purpose of preparing this LIM. Council records may not show illegal or unauthorised building or works on the land.

The applicant is solely responsible for ensuring that the land or any building on the land is suitable for a particular purpose and for sourcing other information held by the council or other bodies. In addition, the applicant should check the Certificate of Title as it might also contain obligations relating to the land.

The text and attachments of this document should be considered together.

This Land Information Memorandum is valid as at the date of issue only.

## s44A(2)(a) Information identifying any special feature or characteristics of the land

This information should not be regarded as a full analysis of the site features of this land, as there may be features that the Council is unaware of. The applicant is solely responsible for ensuring that the land is suitable for a particular purpose including development.

### Site Contamination

No land contamination data are available in Council's regulatory records.

### Wind Zones

Wind Zone(s) for this property: Specific engineering design (not covered by NZS 3604:2011)

The wind zones are based on wind speed data specific to all building sites as outlined in NZS 3604:2011. Other factors such as topographic classes, site exposure and ground roughness determine the actual wind bracing demands and bracing elements required for the building.

For further information refer to NZS 3604:2011 Section 5 — Bracing Design

### Soil Issues

The Auckland Council is not aware of any soil issues in relation to this land. If any soil information/reports have been prepared in relation to this property, they will be available for viewing at an Auckland Council Service Centre or via the property file product services.

### Flooding

This statement entitled "Flooding" appears on all LIMs.

Known flooding information is displayed on the map attached to this LIM entitled "Special Land Features – Natural Hazards - Flooding".

The information shown in the "Special Land Features - Natural Hazards - Flooding" map is also shown on the Auckland Council online map viewer (Geomaps), at [www.aucklandcouncil.govt.nz](http://www.aucklandcouncil.govt.nz), which is updated from time to time.

Any proposed development may require a flooding assessment to be provided by the applicant.

The absence of flooding on the "Special Land Features - Natural Hazards - Flooding" map does not exclude the possibility of the site flooding, particularly from Overland Flow Paths which may be on other properties.

### Flood Plain

This site (property parcel) spatially intersects with a Flood Plain, as displayed on the map attached to this LIM entitled "Special Land Features - Natural Hazards - Flooding", and may flood during significant rainfall events.

Flood Plains represent the predicted area of land inundated by runoff from a 1% Annual Exceedance Probability (AEP) magnitude event, often referred to as a '1 in 100-year event'.

Flood Plains are generally determined by computer based hydrological and hydraulic modelling.

The Auckland Unitary Plan contains policies and rules relating to development and/or works within or adjacent to Flood Plains.

Note: The terms “Flood Plain” and “Floodplain” are used interchangeably.

### Overland Flow Path

This site (property parcel) spatially intersects with one or more Overland Flow Paths, as displayed on the map attached to this LIM entitled “Special Land Features – Natural Hazards - Flooding”.

Overland Flow Paths are lines representing the predicted route of overland flow, based on analysis of a Digital Terrain Model (derived from aerial laser survey). Overland Flow Paths do not show the width or extent of flow.

Overland Flow Paths are based solely on the terrain and are indicative only.

Overland Flow Paths may flood depending on the amount of rain.

The Auckland Unitary Plan contains policies and rules relating to development and/or works within or adjacent to Overland Flow Paths.

Note: The terms “Flow Path” and “Flowpath” are used interchangeably.

### Exposure Zones

New Zealand Standard 3604:2011 classifies all properties in New Zealand into zones based on environmental features including wind, earthquake, snow load and exposure. These zones are relevant to building requirements, such as strength of buildings, materials that should be used and maintenance. All building sites are classified as being in Exposure Zones Extreme Sea Spray, B, C, or D, depending on the severity of exposure to wind driven salt.

This property is classified as: Zone D

High — Coastal areas with high risk of wind-blown sea-spray salt deposits. This is defined as within 500m of the sea including harbours, or 100m from tidal estuaries and sheltered inlets. The coastal area also includes all offshore islands including Waiheke Island, Great Barrier Island. Within each of the zones there are different environmental locations that require fittings and fixtures appropriate to its designation as outlined Tables 4.1 to 4.3 in NZS 3604:2011 being either "closed", "sheltered" or "exposed". For further information refer to NZS 3604:2011 Section 4 — Durability.

## s44A(2)(b) Information on private and public stormwater and sewerage drains

Information on private and public stormwater and sewerage drains is shown on the **underground services map** attached.

Note: Private drainage is the responsibility of the land owner up to and including the point of connection to the public sewer or drain.

Effective Date	Description	Details
26/11/2004	Service plan not available	Public Service Plan not available. Please note this property is not serviced by a reticulated sewer line. Any development additions or upgrading of this property which may affect the septic tank and disposal system

		will be subjected to Council approval. Further advice and information on septic tanks is available from Council's Plumbing and Drainage Specialist – Ph: 09 301 0101
31/12/1999	Standard tanks - RUR	This waste water system is scheduled for pump out every 3 years by a Council contractor. For further information on pump outs please phone (09)301 0101.

### s44(2)(ba) Information notified to Council by a drinking water supplier under Section 69ZH of the Health Act 1956

Prospective purchasers should be aware of other drinking water systems connected to this property. There may also be private drinking water supply systems such as rainwater tanks or private water bores. You are advised to clarify the drinking water supply with the current landowner.

No Information has been notified to Council.

### s44A(2)(bb) Information Council holds regarding drinking water supply to the land

For metered water information, please contact **Watercare (09) 422 2222** for services provided to this property.

### s44A(2)(c) Information relating to any rates owing in relation to the land

<b>Billing Number/ Rate Account:</b>	12341736240
<b>Rates levied for the Year 2018/2019 :</b>	\$2,594.33
<b>Total rates to clear for the current year (including any arrears):</b>	\$1,945.73

The rates figures are provided as at 8 a.m. 18/10/2018. It is strongly advised these are not used for settlement purposes.

### Retrofit Your Home Programme

The Retrofit Your Home programme provides financial assistance, advice and information to householders wanting to create an improved home environment.

The scheme contributes to the achievement of the Air Quality National Environmental Standards encouraging the installation of clean heat and insulation in homes as well as supporting access to central government grants and subsidies. The programme offers homeowners a retrofit plan for their homes and financial assistance up to \$5000 repaid through a targeted rate.

 Auckland Council (09) 890 7898 if you require further information

 retrofit@aucklandcouncil.govt.nz

s44A(2)(d) Consents, Certificates, Notices, Orders or Requisitions affecting the land or any buildings on the land(da) the information required to be provided to a territorial authority under section 362T(2) of the Building Act 2004:s44A and (2)(e) Information concerning any Certificate issued by a Building Certifier pursuant to the Building Act 1991 or the Building Act 2004

Note: if the land is part of a cross lease title or unit title, consents and permits for the other flats or units may be included in this LIM. If the land has been subdivided there may be consents and permits included that relate to the original property.

It is recommended that the full property file is viewed and compared with the actual building and activities on the land to identify any illegal or unauthorised building works or activities.

### Financial / development contributions

---

Financial and development contributions are relevant for recently subdivided land, vacant lots, new residential unit(s) or where there is further development of a site. If any financial or development contribution has not been paid, Council can recover outstanding amount(s) from a subsequent owner of the land.

Please note that financial contributions and development contributions may be paid in land, cash or a combination of these. The form of payment of contributions may be subject to negotiation but final discretion remains with the Council.

### Resource Management

---

#### Planning

There are **NO** Planning resource consents recorded.

#### Subdivisions

There are **NO** Subdivision resource consents recorded.

#### Engineering Approvals

There are **NO** Engineering approvals recorded.

If there are any conditions, then only that portion of the consent will be included in the attachments section. The applicant should satisfy themselves as to whether all conditions of resource consents for this property have been met.

### Further Information

---

The Council may hold additional information for this property, for example concerning resource consents for discharges to air, land or water issued by the former Auckland Regional Council prior to 1 November 2010. If you would like Auckland Council to search for this type of information, please contact us.

### Building

---

91 Cornwallis Road Cornwallis

Application No.	Description	Issue Date	Status
-----------------	-------------	------------	--------

Application No.	Description	Issue Date	Status
BPM-1956-4453	Dwelling	18/10/1956	Issued (See Note 1)
ABA-2006-791	Heater installation	10/04/2006	CCC Not Issued (See Note 3)

Note	Description
1	Permit issued prior to the Building Act 1991 taking effect. Code Compliance Certificates (CCC) were not required.
3	Consent approved but a final Code Compliance Certificate (CCC) for this consent has not been issued. To obtain a CCC an inspection to confirm compliance with the approved plans and standards may be sought.

Please note that prior to the Building Act 1991; Councils were not required to maintain full records of building consents [etc] issued under the Building Act. While Auckland Council has always endeavoured to maintain full records of pre-Building Act 1991 matters, not all records for this period have survived and in other cases where building work is documented, information may be incomplete. Council does not accept responsibility for any omission.

It is recommended that the Council property file is viewed and compared with the actual building and activities on site to identify any illegal or unauthorised building works or activities.

### Compliance Schedules (Building Warrant of Fitness)

The Council has no record of a Compliance Schedule for this property/building.

If it is evident that any specified systems such as lifts or commercial fire alarms are present in the building, the owner must ensure there is a current compliance schedule or building warrant of fitness.

### Swimming/Spa Pool Barriers

The Council has no record of a swimming pool or spa pool being registered on this property. Swimming pools and spa pools must have a barrier that complies with the Building Act 2004.

Pool barrier information is available for viewing at <http://www.aucklandcouncil.govt.nz>

### Licences

There are NO current licences recorded

### s44A(2)(ea) Information notified under Section 124 of the Weathertight Homes Resolution Services Act 2006

The Council has not been notified of any information under Section 124 of the Weathertight Homes Resolution Services Act 2006 relating to this property.

## s44A (2)(f) Information relating to the use to which the land may be put and any conditions attached to that use

Purchasers or those intending to develop the land should satisfy themselves that the land is suitable for any intended use or future development proposal. In addition to any site specific limitations recorded below, general restrictions that apply across the region may be relevant to any development proposals on this property.

### **Auckland Unitary Plan - Operative in Part (AUP:OP)**

The **Auckland Unitary Plan - Operative in part(AUP:OP)** applies to this property and should be carefully reviewed and considered, as it may have implications for how this property can be developed and/or used. Those parts of the Auckland Unitary Plan that are operative replace the corresponding parts of legacy regional and district plans. However, certain parts of the AUP:OP are the subject of appeals and have not become operative. If a property is subject to an appeal this will be identified on the attached Unitary Plan Property Summary Report. Where this is the case, both the Auckland Unitary Plan Decisions version and the legacy regional and district plans will need to be considered.

The AUP:OP zones, controls, overlays, precincts, and designations that apply to this property are set out in the Property Summary Report, which is attached to this memorandum.

The AUP:OP can be viewed here:

<https://www.aucklandcouncil.govt.nz/unitaryplan>

The legacy regional and district plans can be viewed here:

<https://www.aucklandcouncil.govt.nz/districtplans>

<https://www.aucklandcouncil.govt.nz/regionalplans>

The appeals to the AUP:OP can be viewed here:

<https://www.aucklandcouncil.govt.nz/unitaryplanappeals>

### **Auckland Council District Plan - Hauraki Gulf Islands Section (Operative 2013) (DP:HGI)**

While the regional provisions in the AUP:OP apply to the Hauraki Gulf Islands, and are set out in the Property Summary Report attached to this memorandum, the AUP:OP does not contain any district provisions for the Hauraki Gulf Islands. If the Property Summary Report attached to this memorandum lists its zone as "Hauraki Gulf Islands", the district provisions that apply are in the Auckland Council District Plan Hauraki Gulf Islands Section (Operative 2013) (**DP:HGI**).

The relevant maps of the DP:HGI are attached to this memorandum, if applicable. The text of the DP:HGI can be found here:

<https://www.aucklandcouncil.govt.nz/aurakigulfislands>

### **Plan Changes and Notices of Requirement**

Changes to the AUP:OP and DP:HGI may be proposed from time to time. These proposed plan changes may relate to either the maps or the text of those plans. Any proposed changes to the AUP:OP relevant to this property will be listed as a modification in the Property Summary Report attached to this memorandum. However, proposed changes to the DP:HGI will not appear on the Property Summary report. That information can be found on the Auckland Council website.

Please refer to the AUP:OP for information on any proposed Plan Changes or see the Auckland Council modifications website at:

<https://www.aucklandcouncil.govt.nz/unitaryplanmodifications>

---

Information relating to any proposed Plan Changes to DP:HGI can be found here:  
<https://www.aucklandcouncil.govt.nz/aurakigulfislands>

From time to time a requiring authority, such as a Ministry of the Crown or a council controlled organisation, may notify Auckland Council that they require certain land to be designated for a certain purpose. If this property is the subject of such a notice of requirement, that notice may have implications for how this property can be developed or used from the date it is received by Council.

If this property is not on the Hauraki Gulf Islands, any notices of requirement applicable will be listed as a modification in the Property Summary Report attached to this memorandum.

If this property is on the Hauraki Gulf Islands, any notice of requirement will be available on the Auckland Council Website.

Information on all current notices of requirement can be found on the modifications page here:  
<https://www.aucklandcouncil.govt.nz/unitaryplanmodifications>

Copies of the appeals to the Auckland Unitary Plan can be viewed online at:  
<https://www.aucklandcouncil.govt.nz/unitaryplanappeals>

### **Information concerning Caveat, Bond, Encumbrance, Consent Notice and Covenant**

---

For any information concerning Caveats, Bonds, Encumbrances, Consent Notices or Covenants, please refer to the Certificate of Title for this property.

#### **s44A(2)(g) Information regarding the land which has been notified to Council by another statutory organisation**

No information has been notified to Council.

#### **s44A(2)(h) Information regarding the land which has been notified to Council by any network utility operator pursuant to the Building Act 1991 or Building Act 2004**

Underground Services and District Plan maps are attached.

Please note: Height restrictions apply where overhead power lines cross the site. Works near water services utilities may require approval. Works near high-pressure Gas, Oil or LPG pipelines create risk of damage and must first be approved. Please contact the relevant Utility provider in your area for further information.

Any escape of gas or liquid from the pipelines is potentially dangerous and requires immediate action as soon as discovered (Dial 111 and ask for the Fire Service).

## Attachments

As the placement of the building/s on the attached maps is based on aerial photography we cannot guarantee the accuracy. A formal survey will indicate the exact location of the boundaries.

Daytime:	N/A	After hours:	N/A	Facsimile No:	
Email address:	rachelewallis@gmail.com				

## BUILDING WORK

Issued by:	Auckland Council	Building Consent Number:	BCO10070179
Heater installation			

## CODE COMPLIANCE

The building consent authority named below is satisfied, on reasonable grounds, that:

- The building work complies with the building consent and:
- This code compliance certificate has been issued subject to a modification of Clause B2.3 of the New Zealand Building Code. The modification has the effect that the required durability periods for building elements put in place in the course of the work carried out under this building consent, are to be measured from the date of substantial completion of the building work being the agreed date. The agreed date is 12.06.2006, not the date of issue of the code compliance certificate.*

## ATTACHMENTS

### Compliance schedule

On behalf of Auckland  
Council:

Date Issued:

18 September 2020

Print name:

Ian McCormick

Position:

Manager, Building Control

Auckland Council, Private Bag 92300, Auckland 1142

# Important information about the maintenance of your building

New Zealand is one of the few countries in the world that requires buildings and building components to last for specified minimum periods as part of legislation. It is therefore important that normal maintenance is carried out on buildings to ensure they meet legislative requirements.

Normal maintenance is defined as work that is necessary to achieve the expected durability periods for each building component. The frequency and nature of that maintenance will depend on the material or system, its geographical location and position within the building, and may involve the replacement of some components, which are subject to accelerated wear.

The Building Code (B2/AS1, clause 2) states that it is the responsibility of the person specifying (designing) the building elements to determine normal maintenance requirements. This information is usually contained within the specifications attached to your building consent. Maintenance requirements are often based on manufacturer's recommendations and may include the periodic inspection of elements that are not readily visible without special effort (e.g. access to the roof or sub-floor spaces).

Normal maintenance tasks include, but are not limited to:

- Regularly washing down external surfaces, especially those subject to wind driven salt spray
- Regularly cleaning internal surfaces, especially those subject to moisture (bathrooms, laundries, etc)
- Ensure your home / building is well-ventilated; open windows and clean air-extraction systems
  - Dampness encourages mould and mildew which can harm your health
- Ensure ground levels are maintained around the building and kept well below the cladding
  - Don't block subfloor ventilators or weep holes in brick veneer, they are there for a reason
  - Remove all moss, dirt, overgrown vegetation and obstacles
- Removing and cleaning water traps in showers to remove hair and other foreign matter
- Re-coating or painting interior and exterior surface finishes
- Replacing sealant, seals and gaskets in joints
- Replacing valves, washers and similar high-wearing components in service equipment and other building elements
- Cleaning and replacing filters in building services
- Cleaning out gutters and spouting
- Cleaning out cess pits and cut-off drains
- Regular servicing of boilers, cooling towers, lifts, escalators, emergency lighting and fire protection equipment
- Regular servicing of heating, ventilation and air-conditioning systems
- Cleaning and maintaining signs for access, escape routes, emergency equipment and hazardous areas

Maintenance does not include replacing or upgrading building elements to meet the demands of new technology or to increase the environmental expectations of users.

For more information about maintenance, please refer to the Consumer build website at <http://www.consumerbuild.org.nz/publish/maintenance.php>
